PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank / assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

25X1A

Blagoveshchensk Barracks Mokhovaya Pad is located 12 kilometers north of Blagoveshchensk on the west side of the Blagoveshchensk-Belogorsk rail line (Figure 1). A large tracked-vehicle driver-training course is adjacent to the installation on the west. The installation has direct road access to the Mukhinka Training Area Zeya River West [REDACTED]

Blagoveshchensk Barracks Mokhovaya Pad covers approximately 1,800 acres and contains a total of 121 buildings: 3 administration buildings, 22 barracks, 9 general storage buildings, 75 general support buildings, 6 possible dependents housing units, and 14 vehicle/equipment maintenance and storage buildings (Figures 2

and 3).

This installation was covered on TALENT photography of [REDACTED] and on interpretable photography from SKI YHOLE missions between [REDACTED]

Comparative analysis reveals that the training facilities have been expanded considerably since [REDACTED]. Basic changes include the construction of 2 small-arms firing ranges and a large tracked-vehicle driver-training course. The building count has remained approximately the same. The enlargement of the mechanized training facilities since [REDACTED] may indicate a functional change in the installation from an infantry unit to a mechanized unit.

DESCRIPTION OF INSTALLATION

Road Service

Probable primary and secondary roads connect the installation to Blagoveshchensk.

Administration and Troop Housing Areas

Area D1 contains 6 barracks and 2 support buildings.

Area D2 contains 3 barracks and 6 support buildings.

Area D3 contains 5 barracks and 15 support buildings.

Area D4 contains 4 barracks and 7 support buildings.

Area D5 contains 3 administration buildings, 4 barracks, and 13 support buildings. This area appears to be the administrative headquarters for the installation.

General Storage Areas

ILLEGIB

Area I 2 contains a storage building secured by a single fence with probable guardposts.

Other Buildings

Area H1 contains 7 storage buildings and 5 support buildings.

Area H2 contains 11 support buildings. This [REDACTED]

Area H3 contains 4 support buildings and 6 possible dependents housing units.

Area H4 contains 2 support buildings.

Area H5 contains 2 support buildings. These are probably control buildings for the driver-training course.

Area H6 contains 3 support buildings.

Equipment Storage/Maintenance Area

Area J contains 3 vehicle maintenance buildings, each measuring 150 by 35 feet, 8 support buildings, and a motor park, 900 by 600 feet.

Small-Arms Firing Ranges

Area 1.1 is a possible small-arms range measuring 100 by 20 yards.

Area 1.2 is a small-arms range measuring 120 by 60 yards with 8 possible support buildings. This is probably the main training facility for small arms.

Driver Training Areas

Area M1 is a closed-circuit tracked-vehicle driver-training course. This is probably the main driver-training course for tracked vehicles.

Area M2 is a closed-circuit wheeled-vehicle driver-training course area associated with the tracked-vehicle driver-training course.
